HTML & CSS	<i>Skillful</i>	Soldering	<i>Skillful</i>
Python	<i>Experienced</i>	Selling	<i>Expert</i>
SQL	<i>Experienced</i>		

EXPERIENCE

❖ **YrkesYta.se Founder** 2024
Stockholm

We personalize our AI to reflect your personality, crafting a unique cover letter that maximizes your chances of securing a job interview. Our innovative approach ensures our customers land interviews with confidence.

- Built and led a team of employees to successfully execute the company's vision.
- Built the software behind the whole process.
- API, Database, Python, Machine learning, Linux server set up.

❖ **NaturligNyans, Co-Founder** Mar 2023 — Dec 2023

Together with a partner we founded NaturligNyans where we manufactures natural skincare and haircare. With 100kr as our starting budget we made a revenue of 150 000+ kr in first year. Today i have **left** this company to my other colleague because of time.

- Marketing.
- ISO 22716.
- E Commerce.
- Successfully sold to 7 stores around Stockholm including ICA MAXI.

❖ **NEP (Inventors), Internship** Sep 2018 — Feb 2019

I worked alongside inventors to assist them in completing their products. My responsibilities included programming in C#, **soldering**, and supporting them with various tasks. Despite being young and still in high school, I was able to learn about their work pace and methods.

PERSONAL PROJECTS

❖ **GDP-Analytics**

This repository focuses on analyzing GDP data and its implications using Matplotlib, Pandas and Seaborn.

<https://github.com/Lukas-dev1/GDP-Analytics>

❖ **Flask-Book-API**

This is a Flask-based API for a book review platform. The API allows users to perform various operations such as retrieving information about books, authors, reviews, adding books and reviews, updating book details, and more.

<https://github.com/Lukas-dev1/Flask-API-Books/>

EDUCATION

❖ **Jensen Yrkeshögskola** Aug 2023 — 2024

AI-Development not finnished

- Develop diverse applications using Python alongside various web technologies.
- Create applications for AI, data extraction, machine learning, and deep learning.
- Engage and work in agile development projects.

❖ **Military Education** Aug 2021 — May 2022

I have served in the military in Sweden in the artillery.

- Discipline.
- Work hard towards impossible missions.
- Be thankful for what you have.
- Pushing the extra mile to accomplish the groups objective.
- Working with all sort of random people with different backgrounds to meet the objective.

CERTIFICATIONS

❖ **Driver's license (B)**

❖ **fiber welding certificate (INCERT)**
